

## AXA Bike Security

AXA Bike Security is inextricably linked to cycling culture. For more than 115 years, the company has made every effort to protect cyclists and their bikes. As a genuine bike fan, AXA Bike Security knows exactly what cyclists need to safely and confidently take to the road.

Our engineers convert the latest requirements and developments into user-friendly, sustainable products. And thanks to our own production facilities in Europe, AXA can always guarantee constant high quality. This way AXA contributes to the safety and pleasure of the growing worldwide group of people who embrace the bike as a healthy and sustainable means of transportation.

# Powerful battery lights

The AXA Nox is the best battery light on the market. Designed for city and trekking bikes. Nicely designed and optimal safety on the road. It is available in two models: the City and Sport.

## Minimum size, optimal safety

### New design

The Nox City is a compact model with a light output of 4 lux, with this you can see 15 meter in front of you. The Nox Sport is a sporty model with a light output of 12 lux, which gives you a visibility of 30 meters. They both have an integrated reflector and for extra safety you are visible from the side.

### Powered by batteries

The Nox is powered by two AA batteries which can be replaced easily and have a long battery life time with powerful performance. They both have a battery low indicator so you never have to ride without light.

Powered by two AA batteries

Ergonomic on/off button with battery low indicator

### Battery life

The Nox City has 40 hours of cycling pleasure. 20 hours at 4 lux and 20 hours at 2 lux. The Nox Sport has 24 hours of cycling pleasure. 12 hours at 12 lux and 12 hours at 4 lux.

### Auto off function

There is a Sport and City version with an auto off function. This means that the light switches off automatically after 5 min. without movement. Ideal for when you often forget the turn off your lights.
